

# Press Release

Air Energi continues to develop its worldwide presence with 32 offices now providing manpower services to the Oil & Gas industry.

Air Energi has recently opened offices in Yokohama, Japan, Moscow, Russia, Basra, Iraq and New Orleans, USA.

Air Energi made a strategic investment in 2010 to open a wholly owned local office in Yokohama, Japan to give clients a comprehensive recruitment and manpower service delivered by a team of local Japanese staff supported by the regional hub office in Singapore. 18 months later Air Energi is providing strong support to Oil & Gas Operators and Engineering houses in Japan. The local team are delivering in-country consultant payrolling service, local tax support and a streamlined process of visa/work permit acquisition. In addition, Air Energi arranges logistical and accommodation facilities for expatriate personnel.

To date Air Energi have processed a significant number of visas/work permits in Japan and continue to payroll these consultants locally.

Finally, with compliance being a crucial part of our business, Air Energi prides itself on being 'Compliance proof' and upholding the highest of standards (ISO9001) no matter where in the world our consultants are deployed contract.
