

# Press Release

Ian Langley the Air Energi Group Chairman and Khalid Mahdi, Taha and Partners COO, will jointly present a paper at the Iraq Future Energy Conference. The event will be held in Istanbul from September 26th to the 29th.

Air Energi Group and Taha, who are partners in Air Energi Iraq, will be discussing the challenges associated in mobilizing a multinational workforce to execute the various multibillion dollar Iraqi oil and gas projects, over the next few years. They will specifically comment on local Iraqi skills and capability, the community's role in recruitment and the challenges faced when attracting senior project expatriate engineers. Other speakers at the conference include senior executives from the major international oil companies, EPC contractors and Iraqi government ministers.
